

Tanks & Basins

Dynamic Fabricators' quality fiberglass tanks and basins are available for numerous applications and industries. Most of the products listed below we can provide in your choice of resins: Isophthalic, Vinyl Ester, Class I through Class III Fire Retardant resin and a myriad of gelcoat color options. Our fiberglass tanks and basins are manufactured in our ISO 9001:2008 certified plant utilizing state of the art equipment processes and technologies. As part of our ISO quality system each part is given a unique serial number and is tracked throughout the manufacturing process, with quality checks at every step.
